Dear Paul,

Spoke to Mo last night about a numberx of thing in which he are interested. He is busy now, with the re ular work idf the office, and can find little time for this. Aside: to me, this means a repitition of the Shaw case, where suddenly the cases will come to trial without adequate preparation. In about two week he will be able to go over what I have written him. Aside: assuming there is a lag in robberies and aggravated rapes. Fact: no one in N.O. is doing any work on any of this. He actually said so and expressed the wish I could move there for a year.

I have been getting nowhere in one area because Lou will do nothing that he thinks may involve O'Sullivan. To confront this, I asked Mo to get and show him two things: their own files on Ferrie's sex cases, one of which was in New Orleans, and the last page of O'S's testimony, explicitly stating there was no F sex case in N.O. I said this is perjury, for there were but six men on the vice squad, O'S knew Ferrie and had to know there was a serious N.O. case against him, with other charges growing out of it. He agreed. So, we'll see. It was also news to him that O'S was more than just a member, rising to captain.

He will try and get the Int. Unit pre-ass files. He is interested in the Ferrie things he will check and see if they have a Double-Check file. The rest, including Alba, the significance of which he see, will have to wait. But when he can he will send me their Alba stuff and, I think, after we go over it, if we give them a list of questions to be asked, they'll send an investigator out to ask the questions. There is no other way we could be satisfied, for those fellows just known nothing about it.

He is especially interested in all the names that are in any way associated with Ferrie, saying, as he does does, that this is where they should have begun. And then admitting they couldn't do that and send Jaffe to Paris and Switzerland, etc. I think that eventually they'll send someone to each of the names associated with Ferrie's and ask questions. I have a long list you do not have. I am not presently at liberty to divulge it. It will be several weeks before I can seek this permission.

I asked him if Mildred Sawyer could be the Mom of the Society Page. He thinks it possible but is not certain. She is in the CD75 Ferrie docs. If she is "Mom", my point is she lived next toxtthe Oswald's on XXXXX Exchange Place.

One other tidbit: A lawyer, Ed Baldwin, filed some pleadings on behalf of Thornley. He did not indicate their nature. He thinks Baldwin is not and is not to be KT's attorney, he was just for this onepurpose. As I earlier indicated, they will not push Thornley while he is not adequately represented by counsel. They seem to have some knowledge that he is in this predicament.

The enclosed sheet of notes on a steno pad are the beginnings of the list I made for the Kelley meeting. I've added to it as I rearranged. If you can read it, you'll have an idea of some of the things I've posted. I expect to add. Dolan didn't call yesterday.

I've been given a copy of Goldberg's "Conspiracy Interpretations of the Assassination of President Kennedy", of the Security Studies series, UCLA (Ford Found. financed). Such scholarship serves other purposes, like explaining the rise of Hitlers, etc. Disgraceful for a [illegible]
